

Welcome back! We look forward to working with you.

Georgia Women for a Change, Inc., formerly the Women's Policy Group, is standing by to be your resource in the days ahead. Our lobbyists, **Elizabeth Appley** and **Shelley Senterfitt**, are both looking forward to working with you and have the support of 2,300 advocates throughout Georgia as well as our partner organizations Girls, Inc. and the Center for Black Women's Wellness.

Who We Are

Georgia Women for a Change, Inc. is a non-profit think tank and advocacy center with a gender lens that has been advocating for women and girls in the Georgia legislature for twenty years. We act as a resource for policy makers when you need the latest research on how a particular policy may disproportionately impact women and their families. We can provide expert advice and proven successful strategies on issues regarding **economic security and opportunity for women, employment, women's health, marital law, and violence against women and girls.**

Our Agenda

- **Create economic security and opportunity for women and girls:** The current economic crisis has disproportionately affected women. We will work with you to promote policies that help women help themselves and adequately care for their families.

- **End Commercial Exploitation of Children:** We will work with you to end child prostitution and all human trafficking and protect those who have been victimized. We support **HB 582** to set a minimum age for prostitution so that young victims can be treated through Georgia Care Connection.
- **Advocate for transparent, responsible and balanced revenue and spending policies**
- **End violence against women and girls**
- **Safeguard and improve access to health care for women and girls**
